## MORE POWER. MORE ENTERTAINMENT.

The ONE TOUCH Ultra 960C is your ideal fast performance Android powered smartphone on a slim design with a spacious **4.3" capacitive multi-touch** display for enhanced content viewing. Run all your apps faster with **1.4GHz CPU**. Connect at all times, everywhere you go, with the ability to share and stream multimedia content on multiple screens with DLNA support. The ONE TOUCH Ultra 960C also simplifies your **social entertainment** with easy access to your social networking and the ability to share photos, HD video, and music content.

Why pay more? Be Smart.

Android 2.3

Wi-Fi

5MP + VGA

4.3" Screen

## POWERFUL CONNECTIVITY

The 1.4GHz processor gives this phone the ideal fast performance for running your apps, downloading content and streaming videos.

## MORE THAN A CAMERA PHONE

The 5MP auto-focus camera, front-facing camera and HD video give you the versatility to capture all of life's important moments. Plus you can use the front camera for video calling and self portraits of you and your friends.

## SPACIOUS TOUCHSCREEN

The 4.3" WVGA quality with a highly durable Dragontrail™ glass touchscreen provides an enhanced video viewing and web-browsing experience, along with plenty of room to type your emails.

## EXTEND YOUR ENTERTAINMENT

Play games, watch movies and listen to your music on your TV by connecting wirelessly to multiple devices using the built-in DLNA support.

## DESIGNED SIMPLY FOR YOU

The lightweight, slim design makes this phone convenient to carry, while the simple, intuitive interface makes the phone easy to use, including convenient preloaded battery saver and data traffic manager apps.
